

## Summary

A Computer Engineer who has been working as a front-end developer in Istanbul. I love meeting new people, seeing new places, experiencing new cultures and improving myself in diverse and numerous ways. This is why one of my biggest dreams is living and working in abroad. To achieve this dream, I am constantly improving my knowledge in web development.

## Experience

### Front End Developer

Sekerbank • Istanbul, Turkey  
09/2020 - Present

- Our company is going through a digital transformation period. As a development team, we are developing brand new internal applications especially for the HR department.
- I am currently using and working with React.js (v. 16.8+), Typescript, HTML, SASS, Bootstrap, Material-UI (react components library), Bitbucket (to host git repos), Jira (task management), Bamboo (CI/CD).
- In 11/2021, our team was the responsible of 8 newly started React developers. The responsibility of them was given to me by my team leader and I worked with them as pairs for 1.5 months.

### Software Development Intern

TESYS Traffic Engineering System • Lecce, Italy  
07/2019 - 12/2019

- Studied and worked with Ubuntu, HTML, CSS, Vanilla Javascript (ES5-ES6), Angular 2 and Typescript.
- Fully developed a web based game with Vanilla JS.
- Developed a to-do list with Angular. During the task, I practiced passing data between components and routing.
